Homework #2

Lab walkthrough

Recursion

Homework #2

Homework #2: will be released today (Thurs 9/16), due next Tues 9/22 at 11:59pm.

TA Office hours: Mon-Fri 5-7pm in Park 230.

My office hours: Tues 11am-12pm in Park 204.

Recursion

Recursion: When a method calls itself to solve a smaller version of the same problem.

A recursive method needs:

1. **Base case:** when do we stop?
2. **Recursive case:** how do we make the problem smaller?

Example: Countdown

Why do we need a base case?

Recursive call returns & the execution stack

Returning a value

Recipe for Recursive Methods
